

Moving out of the area.

This applies to those members who may be moving out of the area during the year and would like to maintain their membership until they move.

These members **MUST** let the club know at renewal or start off their subscription.

The club will then put them on a monthly subscription.

You must tell us the month before you move that you need your subscription to end.

So, if you tell us in April then May will be the last payment and your membership ends at the end of May.

A £1 per month surcharge is applied to cover the costs of the club for monthly direct debits

If you did not tell the office you are moving then we are unable to give any refund..
